The ECITB's online Foundation Level
International Health & Safety Passport (e-
IHSP)

ecitb.com

The e-IHSP is a more convenient and cost effective way than ever to ensure workers at all levels possess a recognised level of health and safety knowledge and awareness.

In exactly the same way as face to face courses, successful candidates of the Foundation Level e-IHSP will be issued a photographic passport demonstrating their ability to work safely on engineering & construction sites worldwide.

The e-IHSP will be available online with a fully proctored Final Assessment by booking through current ECITB approved IHSP Licenced Training Providers from early in 2022.

What's Covered?

- Lesson 1 – Fundamental Safety Considerations
- Lesson 2 – Hazards, Risks and Controls
- Lesson 3 – Common Workplace Hazards
- Lesson 4 – Accident Investigation
- Course Review and Assessment Protocols
- Final Proctored Assessment

What are the benefits of eIHSP?

Like our face to face course, the e-IHSP:

- Enhances Health and Safety awareness for all workers
- Provides a common level of knowledge across sites
- Creates a safer workplace
- Reduces downtime caused by accidents
- Gives reassurance to managers and supervisors

Features of the e-IHSP

- Suitable for all members of the workforce
- An internationally recognised qualification, transferable between sectors
- Valid for three years
- Same syllabus as the face to face IHSP Course
- Less working downtime and travel costs for learners and employers.
- Fully Proctored Final Assessment
- 24/7 IT Support
- Flexible learning hours
- Multi-lingual options available later in 2022

Quality assured delivery process by the ECITB
